

Facilities Team Update: Summer 2014

The Administrative Review Team for Facilities Management has recently visited at least one campus of each of the seven Universities as part of its effort to gather information and to dialogue with the University community about the project. These visits followed conceptual approval for the team's work by the Board of Trustees in the spring of 2014. The team has documented the feedback it received during the campus visits and that document along with a sample of the presentation that was shared during the campus visits are available at the team's web site. Corrections or updates or comments on the feedback document are welcome and can be communicated using the feedback link on the web site. The facilities team is expecting to address and incorporate the feedback from campus communities, and to conduct another series of campus visits before the end of 2014 as it continues and refines its work.
