**Academic Review**

**Proposed Process with Feedback Loops**

*Start*

CAOs identify next area with input from POC based on CAO criteria

CAOs create subteams with POC input; develop/approve charge and timeline

Subteam solicits input, collects data, does analysis and prepares interim deliverable: opportunity statement, data analysis, proposals and recommendations to increase access, improve quality, address financial sustainability

*End*

To Chancellor

Revised deliverable and recommendations vetted by CAOs and POC

Subteam presents revised interim deliverable; deliverable reviewed by CAOs/POC

Feedback loop to larger University community

Implementation plan

Feedback loop between relevant academic stakeholders not on subteam and subteam

Feedback loop between subteam and stakeholders represented on POC

BOT review and approval (if needed)
